

# **For sale; Incredible low mileage all original 1967 Type 3 Fastback. 5762 og kilometers!!**

A friend of da Houze asked us for some help to find a good new home for this incredible low mileage all highly original 1967 Fastback.

This car was NEVER restored, never apart and never painted, it is all original and like it left the factory in 1967 still original as it can be! With a mere 5762 kilometers on the clock! that's less as 5000miles!

This was the Barcelona show car on the Barcelona Spain auto fair car in 1967 and history only gets more interesting from here! Tyres are still the original (optional) white wall factory tyres!

The brown interior looks like new, and in fact, is still new!

All details of this car looks just plain perfect! Exactly like original, this is what we can call a "reference" car!

Engine was started its whole life on a regular base, at least once a year, well maintained and serviced, this piece of machinery snores like a kitten!

This is a real survivor, forget about patina, this is original... a reference car "pur sang" NOTHING and absolutely NOTHING can beat originality!

All things comes at a certain price so do not expect to steal this away, but its priced right for what it is.

More original can be thought as illegal, as this is as perfect how You can find a 51-year-old gem!!

More pictures available.
