

Don't drink and drive....

Beer delivery tumbled upside down, poor barndoor splittie destroyed.

Don't know if the driver was drunk, but with a load like this we only can imagine...:)

Although when beer barrels start sliding or rolling inside a cargo area this can effect as well, ...

Don't drink and drive, and always secure loads, for sure in splittie buses...

Happy sunday....

Oh yes, öl in Swedish means "BEER" in English... ☐
