

Did you park your beloved Volkswagen nicely lately?

You can park a car in many different ways...:)

But you have to learn at young age....

or at little less young age you can park your bus in Amsterdam

or later on you take your family and park before the “Vleeshuis” in downtown Antwerp.

You only hope that babies in your collection don't get hungry at the same time....)

because if you don't feed them well this is what happens...

But at certain age collecting starts serious, You park them on age.... Early split, late split and oval...

Also in the early days they parked their cars well!

HMMMMM not always....

But Police is watching you, all nicely lined up...:)

happy

sunday... relax... and park well...:)
