

Empty the largest inventory NOS parts of my life

Greetings from Hamburg, Germany, where we're cleaning out the warehouse of Dieter Schmidt Lorenz...

It's just massive...

A very special word of thanks to Susanne for the catering and to Dieter for help despite his crazy pain in the back.

We made a small display of NOS parts and boxes, just as a reminder what we go through here...

Full feature of the entire clean-up will come in Hayburner magazine, make sure to reserve your copy!
